

Musclebound and stone-skinned Rochelle Stone, **TECTONIC**, is the most famous superhero (and waitress) in all the Rockies. Fun-loving Rochelle finds the attention pretty amusing but she just doesn't buy into all that celebrity stuff. Sure, she can throw a bus across a football field, but other than that she's just a regular old Fort Collins girl! If you need help getting your car out of a snowbank or something she'll be happy to help. When Rochelle's not on shift you can usually find her seeing bands at the Surfside or having a few Michelobs and laughs with friends at \$1 taco night over at Al's Canyon Grill.

Community college dropout Rochelle Stone was as surprised as anyone else to have found true happiness working as a waitress at the 29th St Applebee's. But the people there are so great! One night after finishing up her shift Rochelle was caught unaware in the parking lot by some bee-keeper scientists and kidnapped! They blasted her with Super Soldier Vita-Rays and infused her with weird chemicals. But these A.I.M. guys picked the wrong person to try their science crap on. Rochelle trashed the whole secret base and threw them clear into Jackson County! Every couple months they show up and try and recapture her but they can't because they're idiots.
